Doña Maria[®]
PREMIUM QUALITY RICE

 SL Agrifood Corporation , a subsidiary of SL Agritech Corporation was established to provide agriculture products from the Philippines to the global market. The objective of its inception was to penetrate the international market, showcase, and promote the various agriculture products grown in the rich land of the Philippines.

 Incorporated in March 2016, SL Agrifood began its operations exporting tropical fruits such as Cavendish Bananas, Philippine Mangoes, and golden pineapples to the Middle East , China and other parts of Asia as well as some parts Europe. Over the years, the company has proven to provide quality fruits to its international customers. The increasing demand for its Cavendish Bananas paved way to the continuous expansion of its farm in Agusan del Sur from three hundred (300) hectares to one thousand (1,000). Aside from this, the company has a contract growing program with other banana plantations, ensuring steady supply and excellent output, as well as providing livelihood to the farmers in the area.

 With the flourishing business, expanding the list of product offering was planned and is now in progress with the Company eyeing agriculture based processed products as a perfect addition to the catalogue. Our newest product includes Dona Maria Brown rice puff, a 100% whole grain, gluten free and fiberlicious snack.

 SL Agrifood Corporation prides itself of its heritage and aspires to deliver on its promise to bring to the market superior fresh and processed agriculture products either under its own brands or co-branded partnerships and provide sustainable business to local growers and manufacturers.
